

WARRANTY

ISITEEK™ is protected under the FLEXITEEK patent and it has a three year material guarantee.

The material guarantee for the Isiteek material is valid for the first 3 (three) years from the date of purchase.

During the guarantee period the product will be free from defects in material and, not including workmanship, will not split, crack, peel or rot.

This vendor liability covers only material changes which arise under the working conditions assumed in the contract, and that the material has not been exposed to aggressive chemicals, acid washes or extreme heat.

Any defects related to the fabrication/building of an ISITEEK™ deck will not be part of the material guarantee, i.e. the material guarantee does not cover any installation nor the joining/gluing of planks (ISI2x45PB/W) and/or margin board (ISI60MB/W) and/or king planks (ISI125KP) together.
